

Skin Scripts Enzyme Wash

Gentle foaming face wash, formulated with enzymes for a added benefit. The enzyme wash gently deep cleans the pores, while the enzymes lightly exfoliates and leaves the skin refreshed and soft to the touch. Papain & Bromelain enzymes work synergistically to gently "digest" the protein in skin cells refining coarse, thickened skin for a smoother textured appearance, lift and remove older, upper layers of skin, revealing fresher and younger looking skin cells underneath.

BENEFITS:

- Removes excess sebum and dead skin cells.
- First step to prepare skin to absorb active ingredients.
- Refines pores, refine coarse, thickened skin for a smoother textured appearance
- Leaves skin soft and smooth "polished"

Directions for use: Apply small quantity to dry face apply very little water and rub in circular movements until a light foam is formed. After about 2 to 3 minutes wash foam off with warm water and dry face.

WARNING:

Contains ingredients from papaya and pineapple fruit. Don't use if allergic to these fruits.

Active ingredients:

Salicylic acid: Beta hydroxy acid is proven to unclog congested cells, removing excess sebum and exfoliate dead skin cells that are built up inside the pores

Lipoic acid: This acid is a unique and powerful antioxidant and free radical protector for all cells because it is both fat and water soluble.

Papain & Bromelain: Synergistically "digest" the protein in skin cells. Lift and remove older, thickened skin for a smoother textured appearance

Kaolin: Absorbs excess oil

Sage oil: Antibacterial
