

## SKIN SCRIPTS EYE LASH & BROW SERUM

EYE LASH & BROW SERUM root conditioning serum that promotes eye lash and brow growth. It is developed to improve the volume, length and diameter of lashes and brows.

### **BENEFITS:**

- A blend of exclusive conditioning actives includes biotinyl-GHK, Myristoyl Pentapeptide-17 and AHK-Cu that help to strengthen and lengthen hair follicles of sparse lashes and brows prone to weak follicles and breakage .
- Hair morphogenesis and strengthening of the anchorage of the root sheath in the dermis.

### **MANUFACTURED IN SOUTH AFRICA**

**DRA PHARMACEUTICALS,  
Route 21 Corporate Park, Irene X 31,  
Centurion, South Africa.**

**Directions for Use:** Apply twice daily after washing face in the morning before applying mascara and at night after removal of mascara and application of skin care products.

### **Active ingredients:**

**Biotin-GHK** promotes the adhesive proteins at the dermis / root sheath junction, thereby increasing the anchoring power and prevent hair from falling out. These proteins include Laminin 5 and Collagen IV.

**Myristoyl Pentapeptide-17** The formation of keratin in the anagen phase is essential for hair growth and density. With aging, this process slows down. To combat age-related decline in keratin synthesis, scientists developed a peptide called myristoyl pentapeptide-17. It has been shown in laboratory experiments to increase the expression of keratin genes by up to 160%, thereby boosting keratin production

**AHK-Cu** Strong in vitro evidence indicates that AHK-Cu stimulates hair growth by increasing the proliferation of Derma Papilla Cells, and by preventing their apoptosis.

**Panthenol (Pro Vit B5)** penetrates into lower skin layers, where it is absorbed into skin cells and processed into pantothenic acid (commonly known as vitamin B5). It intensely moisturises *eyelashes* that are very dry, fragile and damageable, restoring their natural flexibility which results in smooth and shiny lashes.

### **Other ingredients**

Aqua, Carbomer, Polyvinyl alcohol, Butylene glycol, potassium sorbate.
