**Apply twice daily after washing face and applying toner.**

### **Active ingredients:**

**PACIFEEL™** is a natural extract of the *Mirabilis jalapa* plant also known as the Marvel of Peru. targets the causes and signs of sensitive skin. It pacifies the communication between the epidermis and nerve endings by modulating the level of sensory receptors (TRPV1) and messengers. It stimulates the synthesis of various key components of the epidermis including ceramides, occludin and hyaluronic acid.

**SWT-7** is a self-regenerative Stem Cell Technology.

Stimulates keratinocyte growth factor production by adipose-derived stem cells. Stimulates epidermis regeneration and thickness. Blurs the appearance of vertical wrinkles after only 7 days!

**NANO LIPOBELLE CoQ10** contains ultra-small particles of the highly purified coenzyme Q10, tocopherol and a derivative of vitamin C. Coenzyme Q10 (ubiquinone) is an essential component of energy metabolism in cells. Furthermore, it plays an important role as an antioxidant.

Following stress, such as UV irradiation or at advanced age, there is a decline in the coenzyme Q10 content in skin cells. Nano-Lipobelle CoQ10 provides coenzyme Q10, vitamin E and stabilized vitamin C in a delivery system with lecithin that is optimal for topical applications and both energizes and protects the skin from signs of aging.
